

Personal Details

Date of Birth 14.09.1994
Nationality Indian
Gender Female
Marital Status Single

Experience

06/2020 – 09/2020

Deutsche Gesellschaft für Internationale Zusammenarbeit(GIZ) , India – Intern
Business : Sustainable Development and international cooperation

Research on Smart Home concept, international strategies with energy efficiency measures and its implementation in India.
Support in the development of ECONIWAS tool – an advanced simulation tool.

02/2017 – 08/2018

Voltas Pvt Ltd., Delhi, India — Sales and Estimation Engineer
Business: Household appliances, engineering
Sales: approx.US \$ 960 million, Employees: approx.5,28

Approval of technical specification and desired makes by client's technical team and Consultants.
Understanding and fulfilling all requirements of bid; preparing techno-commercial terms and conditions for bid to protect the best interest of the company; evaluation of bid value and submission of bid as per client's requirements.
Negotiation with equipment's manufacturers & system providers to achieve profitable projects.

05/2015 – 07/2015

ERNET India, DEITY, Ministry of communication and IT, Govt of India, Delhi, India
Networking Intern
Business: Education, research and development in networking.
Networking concepts and introduction to Linux.

Education

10/2018 - Present

Technical University of Ilmenau, Ilmenau, Germany
Masters in Computer Science and System Engineering
Research Project – Multi Trajectory Simulation Algorithm
Note - 2.45

08/2012 - 07/2016

Guru Gobind Singh Indraprastha University, Delhi, India
Bachelor of Technology in Electronics and Communication(ECE)
Bachelor Thesis - SMART EYE(A MATLAB based project on image detection & distance calculation)
Note - 2.12

Projects

MULTI TRAJECTORY SIMULATION ALGORITHM - 2021

Multi Trajectory Simulation Algorithm is a mixture of simulation and numerical analysis applied on Petri-net models.

SMART EYE (MATLAB) - 2016

Smart Eye is the wearable pair of glasses inspired by Google Glass is a wearable technology with an optical head mounted display (OHMD). It is a GPS enabled smart gadget having cameras and intended purpose of monitoring and surveillance with various advantages like face detection and recognition, location tracking, distance measurement, temperature, humidity, blood pressure sensing.

Achievements

- Secured first position in a technical competition (2014)
- Participated in national conference on 'Computational Intelligence, Communication Networks & Smart Grids'
- Research paper on topic – Smart Eye, Paper Id- NCCCs2016/CS/114

Additional Skills

Languages

English (Advanced), Deutsch(A1), Hindi(Mother Tongue)

Technical Knowhow

Data structures & algorithms, operating systems, RDBMS and system design, Cloud computing, Embedded systems, Telecommunication networks

Programming Languages and Frameworks

Python, Django, C++, MATLAB, SQL

Computer Skills

Windows, Word, Excel und PowerPoint

Soft Skills

Creative, Flexible, Strong work ethics

Hobbys

Badminton, Travel, Movies

29.04.2021, Ilmenau
