Summary

PMP Certified Project Manager with 19+ years of experience owning all stages of the life cycle to deliver projects. I have gained an Intimate understanding of what makes Technical Projects successful.

I am working with Bharat Electronics Ltd. Since 2003, During these years I got opportunity to work in Development and Engineering, Testing, Product Assurance, Material Management and PMG departments. I learned various technologies and contributed in development of Telecom Equipment's. Learned about Supply Chain Management and started procurement through GeM in Material Management Department. I am a fast learner and want to learn grow and contribute.

Currently working as a project Manager in PMG department.

Looking forward for an opportunity to use my skills to learn grow and contribute to the organization.
