

Mohammed Shafiq

Residence permit: 2562723219 | **Work permit:** Saudi Arabian | **Nationality:** Indian |

Gender: Male | **Phone number:** (+966) 539576408 (Mobile) | **Email address:**

mohammedshafiq87@gmail.com | **LinkedIn:** [linkedin.com/in/mohammed-shafiq-103615243](https://www.linkedin.com/in/mohammed-shafiq-103615243) |

Whatsapp Messenger: +966539576408 |

Address: Al Amal Riyadh Saudi Arabia, 12643, Riyadh, Saudi Arabia (Home)

ABOUT ME

Motivated Electronics and Communication Engineer with strong knowledge in electronic circuits, communication systems, and manufacturing processes. Seeking an opportunity to contribute technical skills and problem-solving abilities in a dynamic engineering environment.

WORK EXPERIENCE

ELECTRONICS ENGINEER – SAUDI CONTROLS – 21/12/2025 – Current – RIYADH, SAUDI ARABIA

- Assemble and test electronic components and PCB boards.
- Diagnose and troubleshoot electronic circuit issues.
- Maintain production quality standards in the assembly line.
- Perform functional testing using multimeter and oscilloscope.
- Support manufacturing processes and improve production efficiency.
- Ensure safety and quality compliance.

ELECTRONICS ENGINEER – NABE AL KHOBAR SECURITY CO. – 01/01/2024 – 30/06/2025 – RIYADH -12644, SAUDI ARABIA

- Designing embedded systems for electronic equipment.
- Performed testing and validation of electronic prototypes.
- Designing developing and implementing electronics systems and components.
- Troubleshooting and diagnosed complex technical issues using specialized testing equipment, resulting in accurate and timely repair.
- Supervised electronics assembly line operations.
- Ensured product quality according to manufacturing standards.

ELECTRONICS ENGINEER – IQMETRIC SOLUTIONS PRIVATE LIMITED – 04/10/2021 – 30/09/2023 – MANGALORE, KARNATAKA - 575002 , INDIA

- Design and implement electronics circuits for consumer electronics.
- Coding and testing embedded systems based on requirements.
- Writing and maintaining system documentation detailing their parts and functions.
- Combining multiple hardware elements to create and install systems.
- Debugged and optimized embedded software for multiple platforms including microcontroller, digital signal.
- PWM based power electronics control and topologies.

EDUCATION AND TRAINING

07/07/2017 – 28/07/2021 Belagavi, India

BACHELOR OF ENGINEERING Visvesaraya Technological University

Address Jnana Sangama, VTU main road vtu machhe, belagavi, Karnataka , 590018, Belagavi, India | **Website** <https://vtu.ac.in/> |

Field of study Electronics and Communication Engineering | **Final grade** 3.24 GPA | **Thesis** IOT Based Smart Billing System

LANGUAGE SKILLS

Mother tongue(s): **BEARY**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C2	C2	C2
HINDI	C2	C2	C2	C2	C2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

C/C++ Programmer | Verilog HDL | SQL (MySQL) | • Xilinx | Microsoft Office | VLSI

SOCIAL AND POLITICAL ACTIVITIES

IEEE Member

Participated in VAYUYANA v3.0, conducted by Team AIREINO, 2019

Participated in Low Power Design Techniques for Digital Circuits, organized by IEEE Circuits and Systems Society Bangalore, 2020

Participated in Application Security-Vulnerability Assessments (SFNOS 909),2021

Certified on "Wireless Communication for Everybody", Coursera, 2020

Write here the description...

PROJECTS

07/10/2020 – 05/06/2021

IOT Based Smart Billing System

The main aim of our project is to reduce the time spent during the wait in queue at the billing counter. By using RFID technology, we are able to scan multiple items at a given time. Generating the e-bill automatically and sending same to the customer. Due to generation of e-bill, the paper is not used for billing which in turn contributes to the conservation of trees.

CREATIVE WORKS

05/03/2021 – 04/04/2021

Internship

An introduction to Programming the IOT - Specialization Course

The specialization course was very effective and helpful in developing the knowledge on Internet of Things and other IoT technologies. The specialization covers embedded systems, the Raspberry Pi Platform, and the Arduino Environment for building physical world. There are many opportunities and careers after learning about Internet of Things. Was able to develop mini projects and also compare different tools used in Internet of Things with one another to decide the best one to give the desired result. A life time knowledge gained with the corporate experience.

ORGANIZATIONAL SKILLS

Certified on "Interconnecting Cisco Networking Devices: Accelerated (CCNAX) 3.0",2017

Certified on "An introduction to Programming the IOT" Specialization course, Coursera, 2020

Certified on "Step into Robotic Process Automation" GUVI's RPA SKILL-A-THON, 2020

Certified on "Introduction to Satellite Communication", Coursera, 2020

Certified on "Cybersecurity Compliance Framework & System Administration", Coursera, 2020
